## ENVIRONMENT

We own and manage Prologis Parks, which means that we maintain the private roads, the park drainage and all the landscaped areas. We install signage both for the park and the individual buildings and we take responsibility for litter picking to make sure that every park is an efficient, attractive place to work.

## TRANSPORT

We offer our customers a number of options to help staff travel to and from work. Green Travel Plans encourage employees to share lifts, walk or cycle, and we provide charging points for those who drive electric vehicles. We also work with local bus operators to run work buses, making sure that bus timetables coincide with shift patterns.

## WORKING COMMUNITY

Working together can benefit everyone. We arrange regular tenants' meetings at all Prologis Parks, so that customers can share information and agree on a range of joint initiatives from sharing the cost of cleaning buildings to reciprocal car parking.

## SECURITY

We know how important site security can be for our customers and we take care to install the best measures for each Prologis Park. These include on-site security teams and Police Community Support Officers, parking controls, Automatic Number Plate Recognition systems and site-wide CCTV.

## WELLBEING

We design our parks to include plenty of open space, so that everyone who works there can walk, run, cycle or just take a break during a busy day. Some of our sites also have country parks, which have become valuable amenities for our neighbours in the local community.
